

**International Learning Center Film Series presents**

# **RAIN IN A DRY LAND**

The documentary **RAIN IN A DRY LAND** follows two Somali Bantu families as they leave behind a two-hundred year legacy of oppression in Africa to face new challenges in a strange new land. In 2004, thirteen thousand Somali Bantu refugees realized their dream of coming to America. They are now living in fifty cities across the country including Milwaukee, becoming the largest African group from a single minority to settle in the United States at one time.

**Friday, November 18, 6:30 pm**
